

IRMATIC is a Polish designer, manufacturer and supplier of comprehensive industrial vending solutions for the global market with 30 years of experience backed up by a team of over 300 specialists.

We help enterprises optimize production, stocking, ordering, and various other business processes through a wide range of advanced industrial vending machines powered by proprietary software.

IRMATIC holds complete in-house control over design, manufacturing and coding. This allows us to tailor every detail of our solutions to customer needs and requirements.

All IRMATIC machines are tailored to the customer's needs. The number and dimensions of compartments, type and size of drawers, tool charging sockets, lighting, device color, and branding can all be modified.

High capacity, minimal space requirement

Our machines are designed to hold the maximum number of products while occupying minimal space. The best-selling IRSTOCK 945 takes up only 0.9 m² and fits through a standard 90 cm interior door frame.

Outstanding capacity

IRMATIC's IRSTOCK 1260 is the biggest drum-based machine of its type, capable of holding up to 1260 unique items.

The sequentially-opening IRDRAWER PRO can house a total of 1440 individual SKUs. All this at a minimal footprint.

Fast loading

When time and convenience matter, take advantage of one of our many product loading options. Fully restocking the IRSTOCK 1260 takes no more than 25 minutes. Perfect for PPE, power tools, hand and cutting tools, welding and abrasive supplies, as well as consumables.

Hassle-free reconfiguration

IRMATIC hardware is easily reconfigurable. Whether you need to alter the number or dimensions of slots, or adjust the front door panel, change is only a few screw turns away.

Revolutionizing consignment

Enjoy advanced consignment stock management features thanks to our proprietary cloud-based **IRSYSTEM** software and suite of dedicated devices. Virtualize physical warehouse spaces for unmatched convenience.

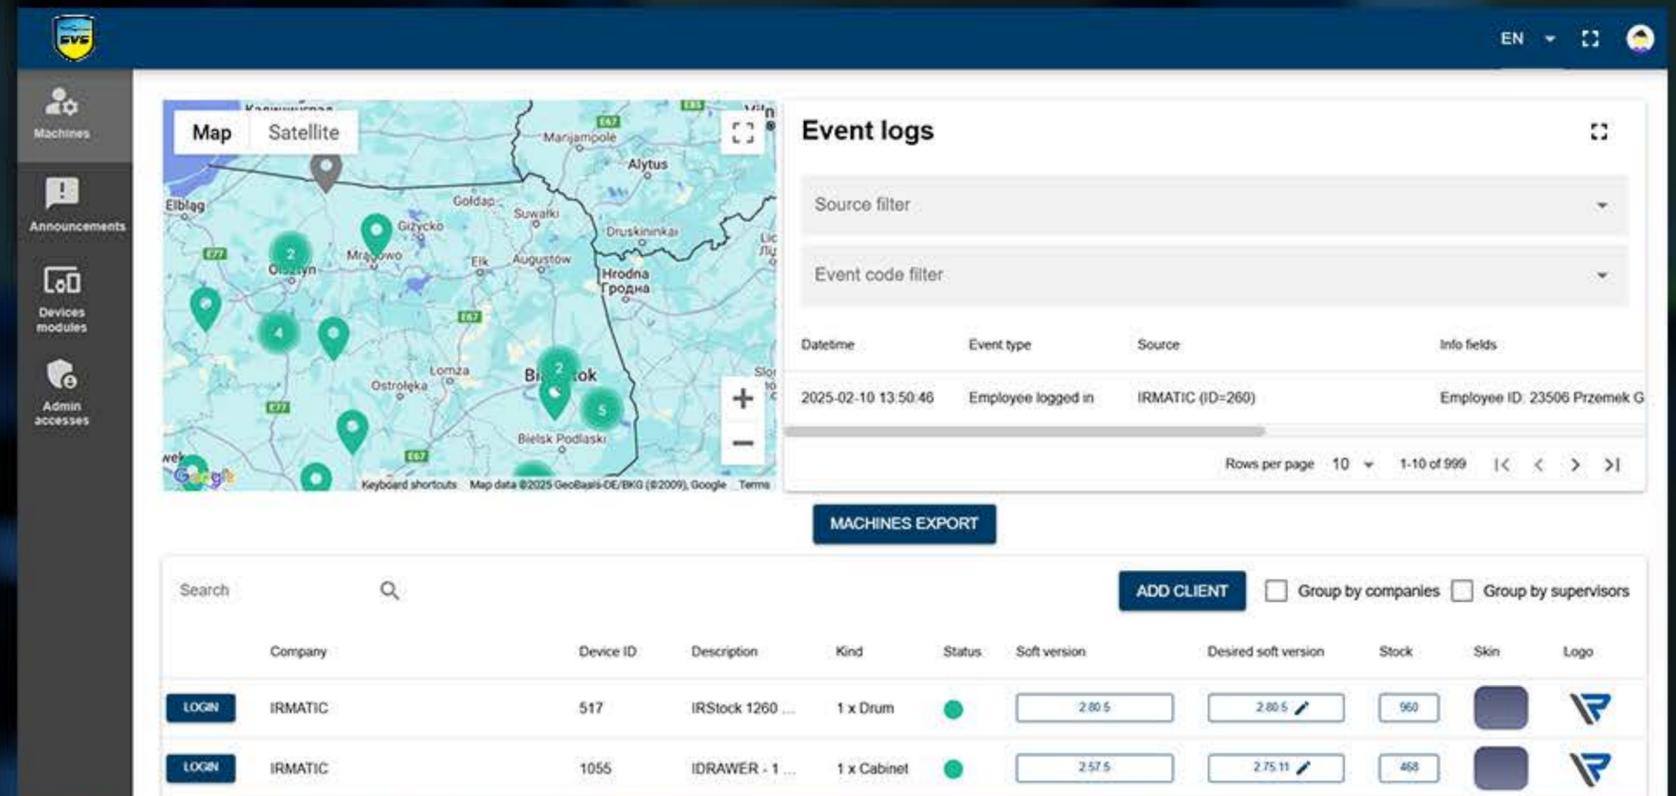

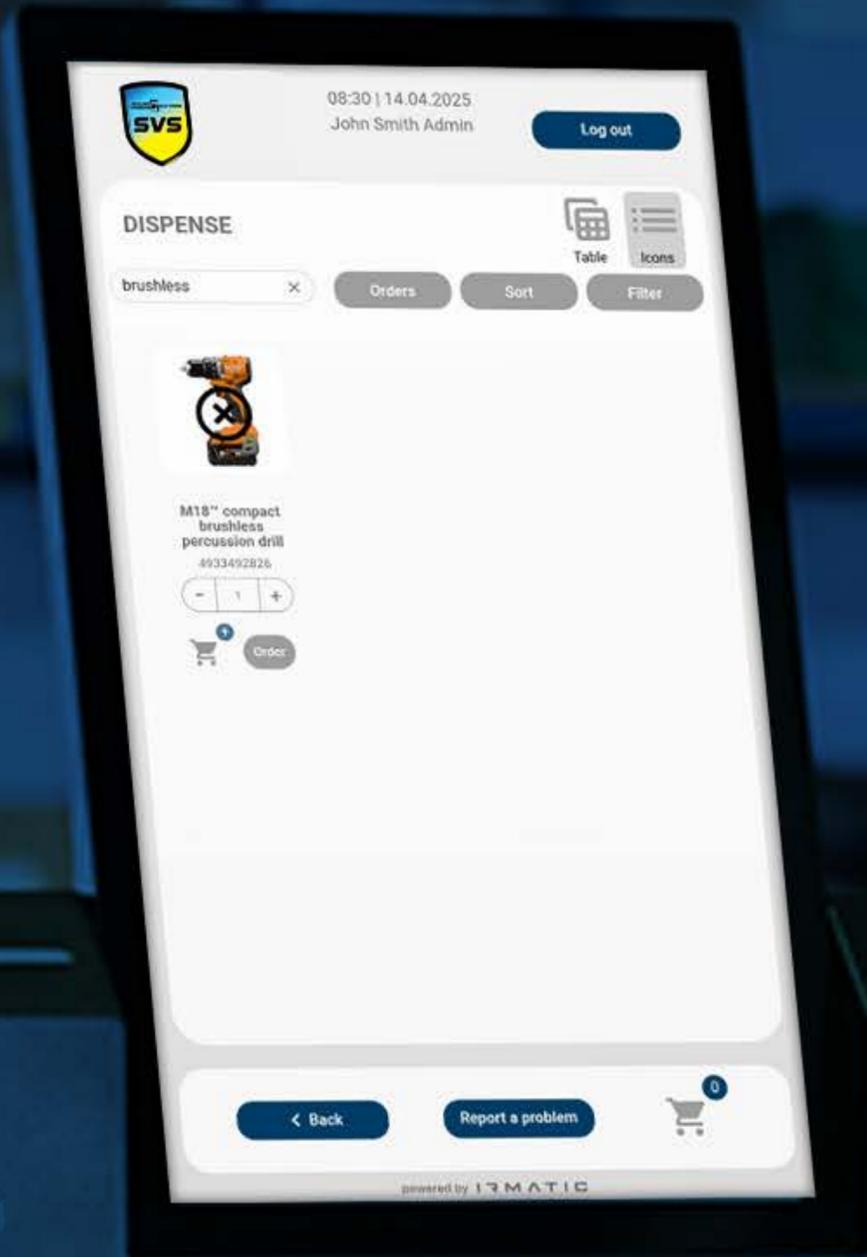

Safety compliance

Ensure that your equipment is always ready to use. The IRHOOK was designed to alert you of upcoming obligatory safety certifications for slings, safety harnesses and ladders.

In case of missing the deadline, the products will not be issued to employees, boosting their safety.

Real-time remote machine management

Manage each machine feature and its performance via Team Viewer. No matter the distance, control is always at your fingertips from any web-enabled device.

Extra safety features

Display instructions, warnings, operating manuals and other documents to boost employee safety and effectiveness

powered by IRMATIC

Automation at its core

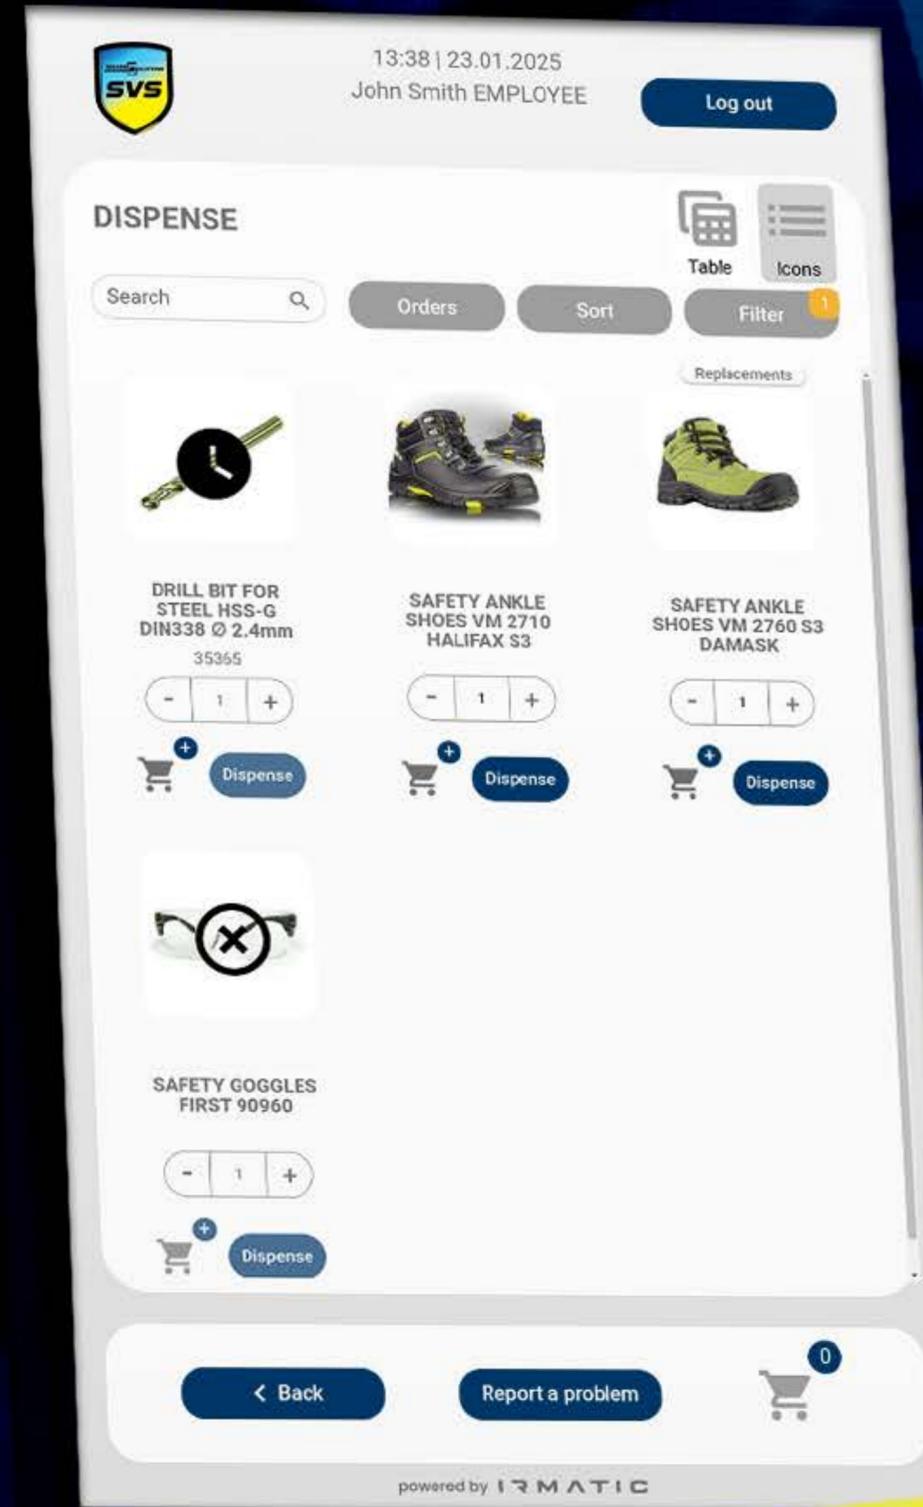

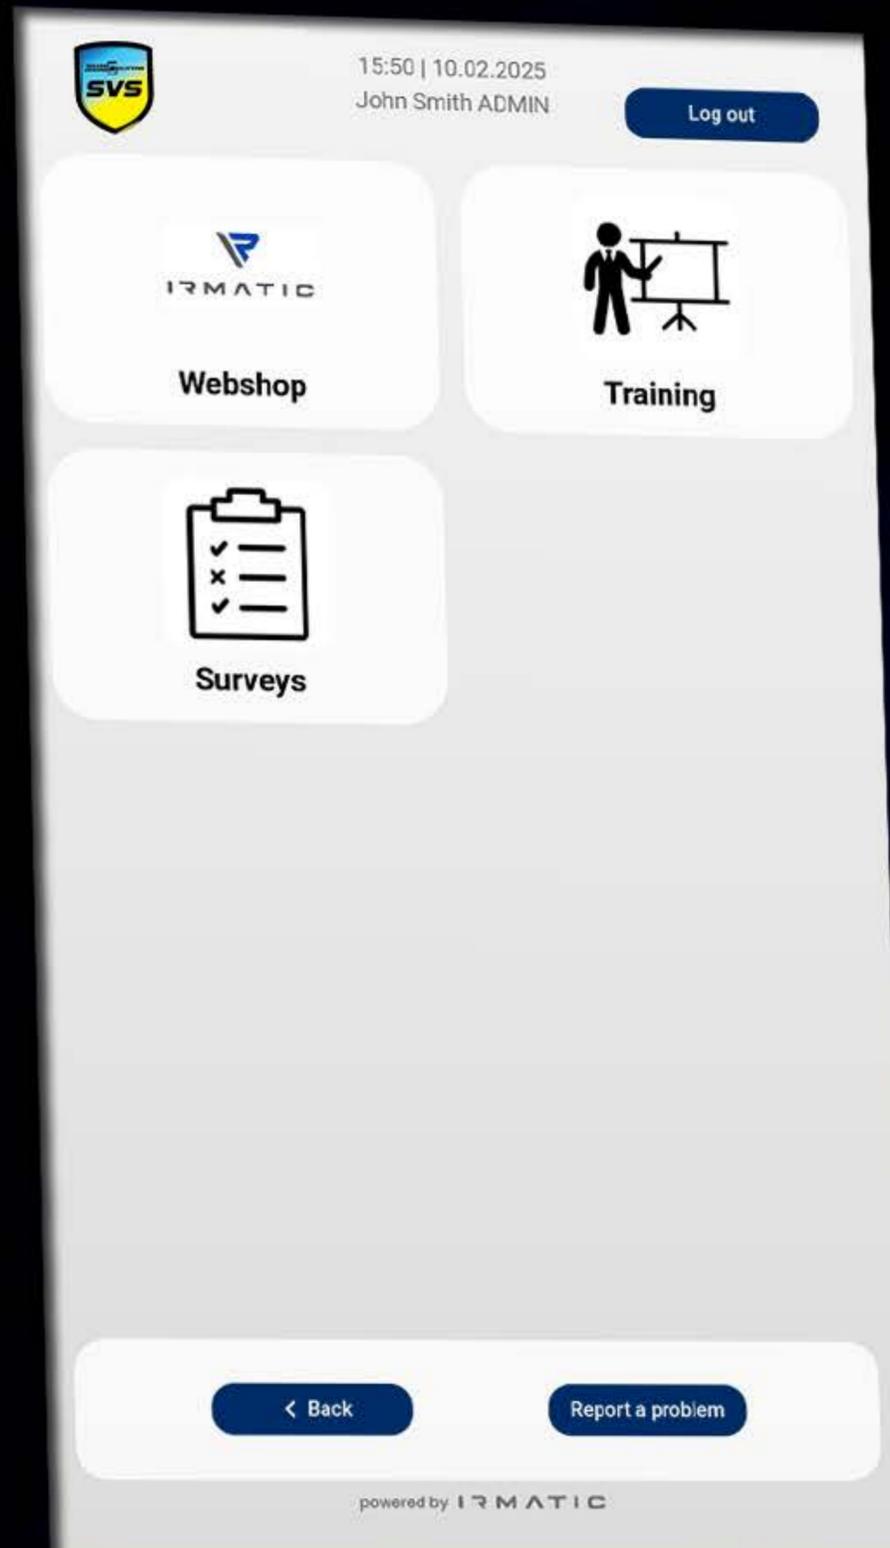

Take advantage of our auto-ordering function. Once predefined minimal stock levels are reached, an order is generated and sent to the supplier upon approval.

Internet access directly from machines

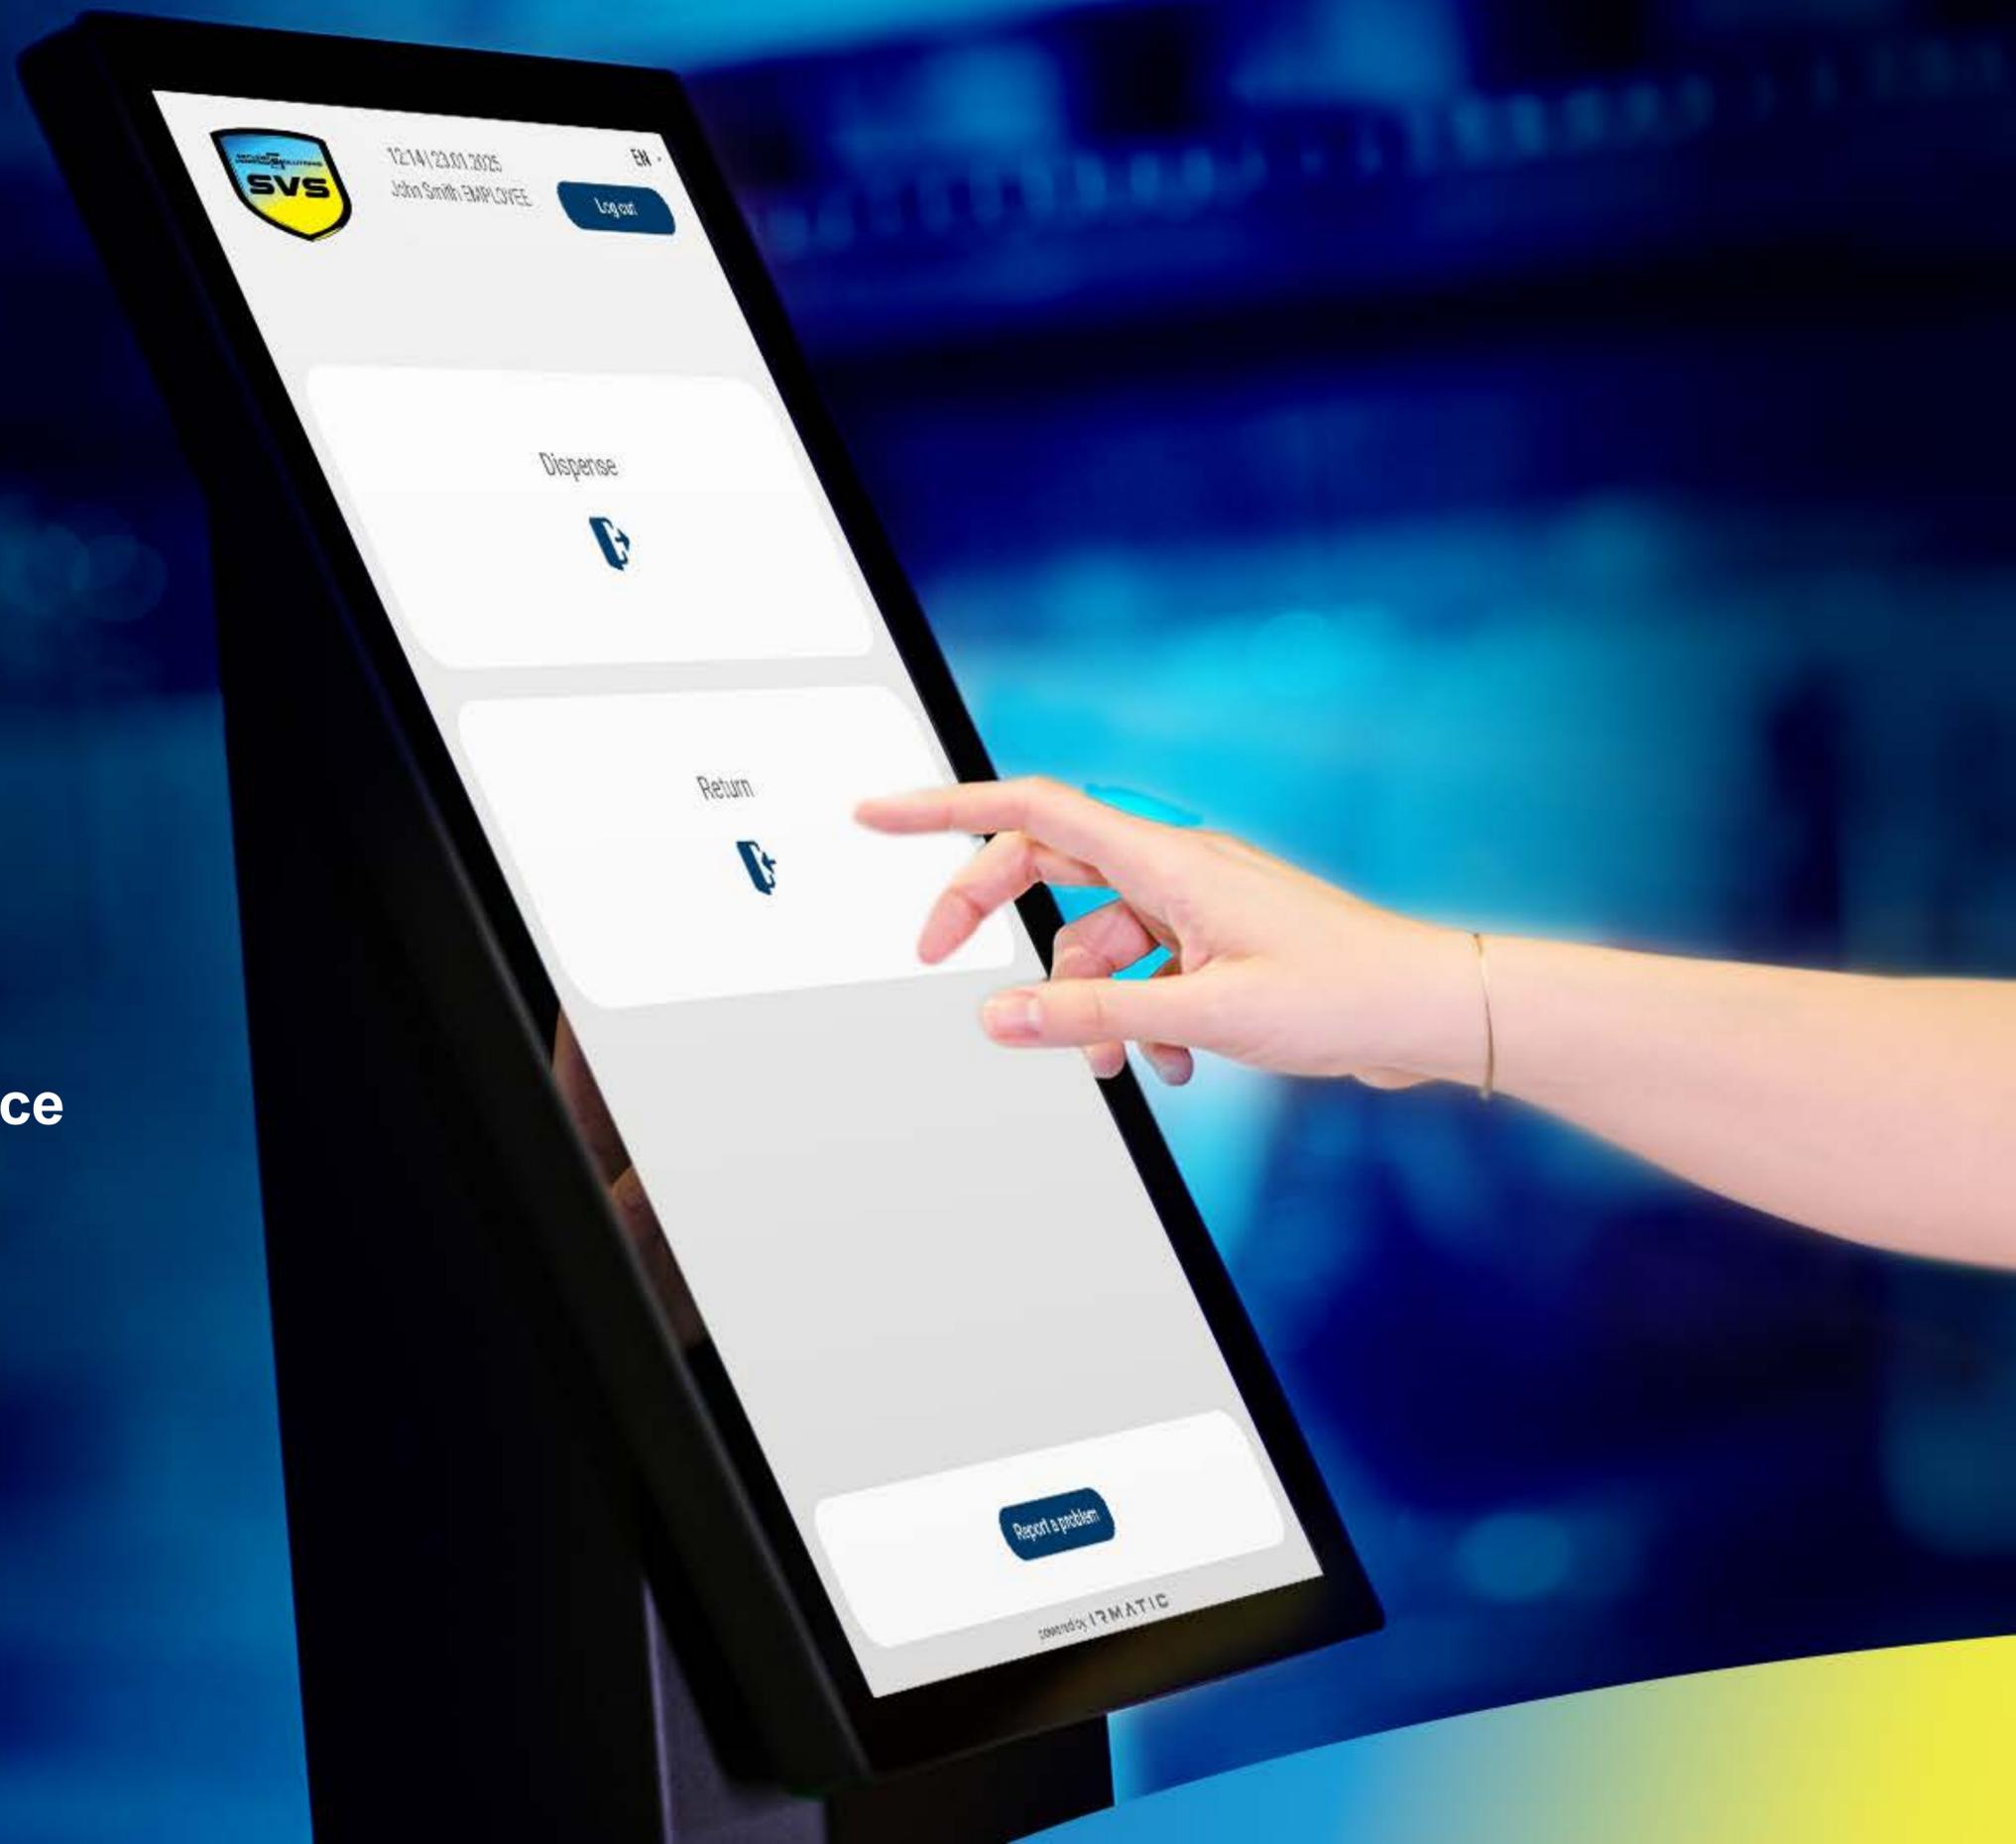

Flexibility you need – and deserve. IRMATIC machines offer internet connectivity tailored to your specifications. Let your employees browse selected online stores, fill out surveys, and take part in training sessions – all in one place.

No training needed

It doesn't get any easier than this. Operating our machines is as simple and intuitive as ordering off a self-service menu in your favorite restaurant. No training required, no employee time wasted.

BENEFITS FOR THE METALWORKING INDUSTRY

IRMATIC industrial vending solutions – addressing key challenges

- Eliminating errors in selecting the right tools thanks to issuing based on predefined production orders.
- If a specific item is unavailable, the machine suggests a substitute to maintain operations.
- Assigning costs to each issuing operation makes project budgeting easier.
- Defining access levels and usage limits removes the risk of product misuse.
- Full control over tool wear levels and simplified regeneration process.
- Automatic reordering of low-stock items ensures continuous production.
- Virtual tool handover between shifts by employees.
- Real-time inventory control from any device with a browser and Internet access.
- Tidiness – to take a new tool, the previous one must be returned.

BENEFITS FOR THE HEALTH & SAFETY SECTOR

IRMATIC industrial vending solutions – addressing key challenges

- Issuing PPE items assigned to specific workstations.
- Cost savings through issue limits for each employee.
- Option to display instructions, procedures, product descriptions, and training materials directly on screen before dispensing the item.
- Prioritized dispensing of laundered items over new ones – e.g. shirts or specialized protective gloves.
- Control over workwear circulation with easy management of cleaning and repairs.
- Reminders of upcoming mandatory deadlines for issuing new PPE to employees.
- One machine can be restocked by multiple suppliers.
- Automatic reordering of low-stock items ensures operational continuity.

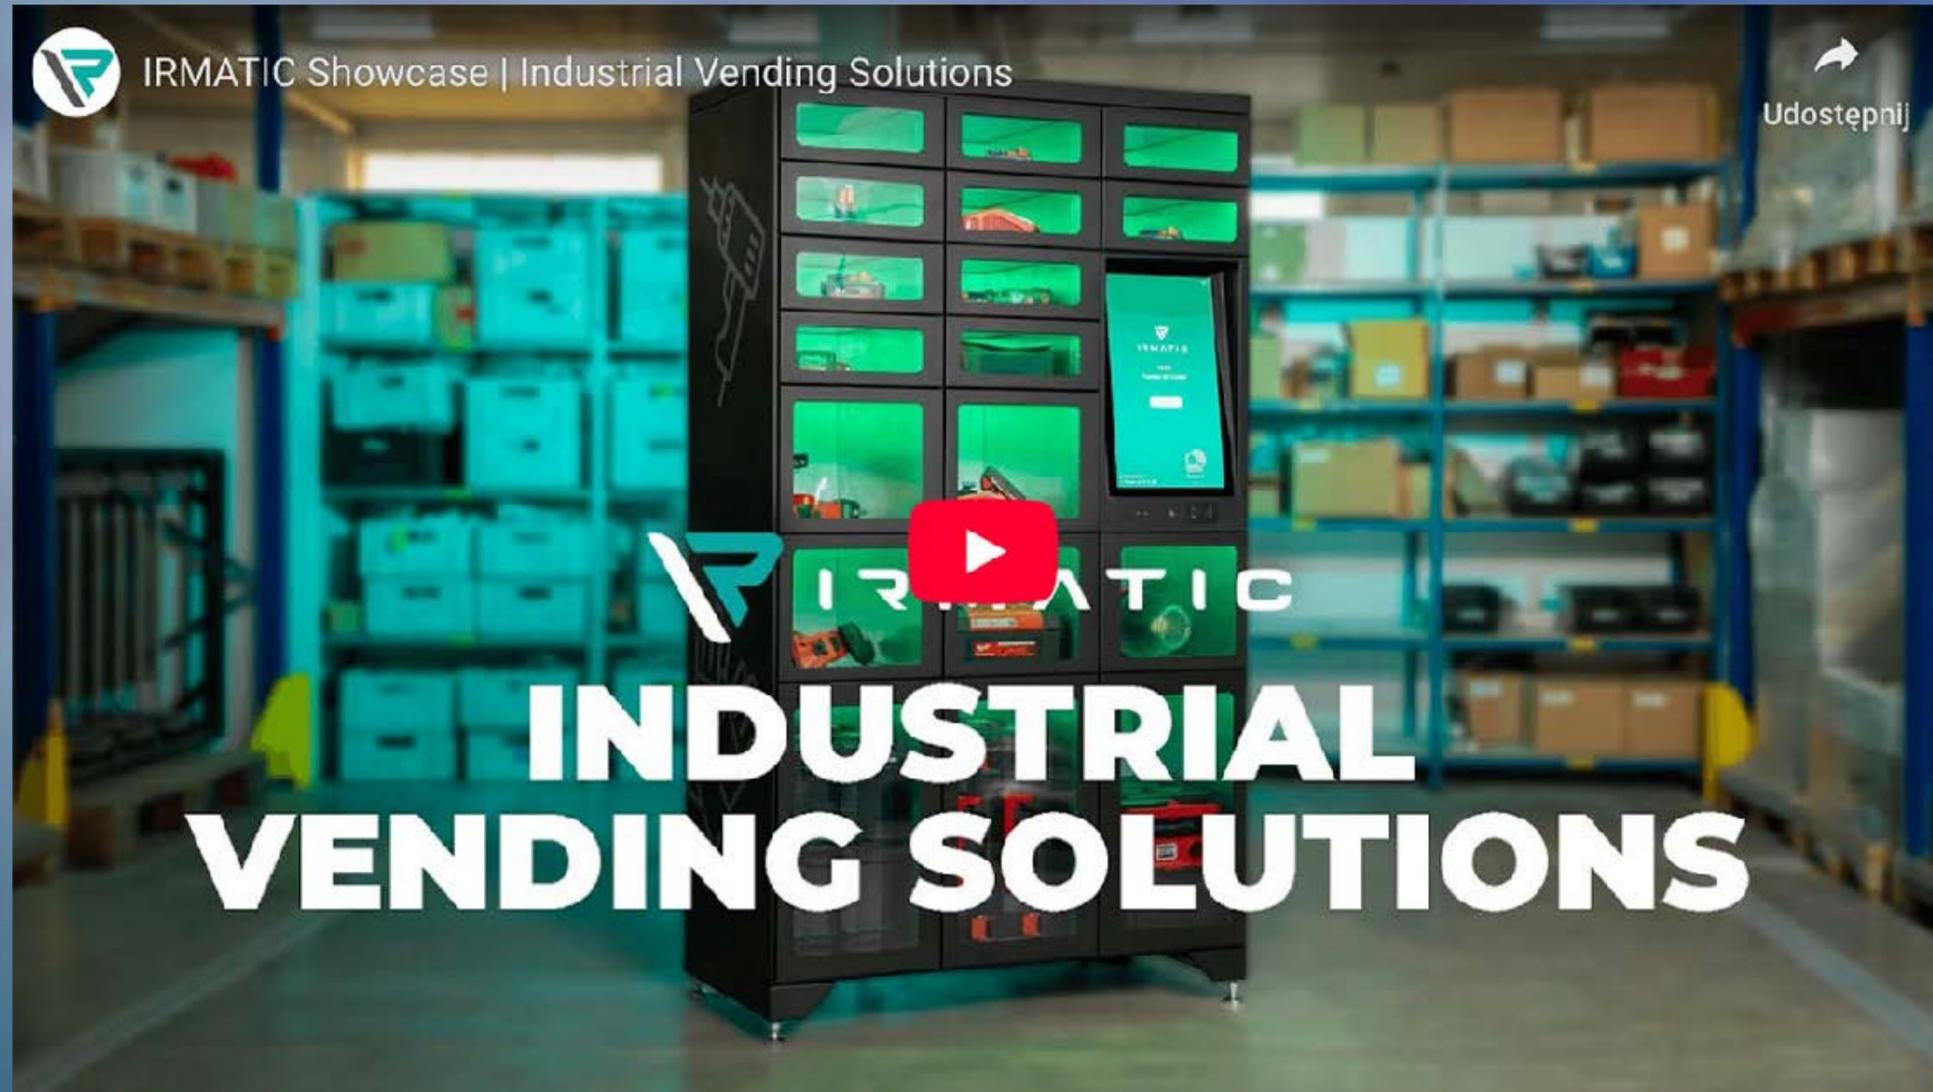

BENEFITS FOR THE WELDING INDUSTRY

IRMATIC industrial vending solutions – addressing key challenges

- Dispensing the correct assortment dedicated to specific equipment (TIG, MIG/MAG, etc.).
- Eliminate errors by issuing defined groups of products based on production orders prepared by the technologist.
- Returning used welding components before dispensing new ones supports sustainability and increases profit.
- Viewing welding procedures directly on the machine screen.
- Monitoring deadlines for mandatory welding equipment inspections, with dispensing blocked if date is overdue or item is lacking certification.
- Real-time inventory control from any device with a browser and Internet access.
- Assigning costs to each issuing operation makes project budgeting easier.

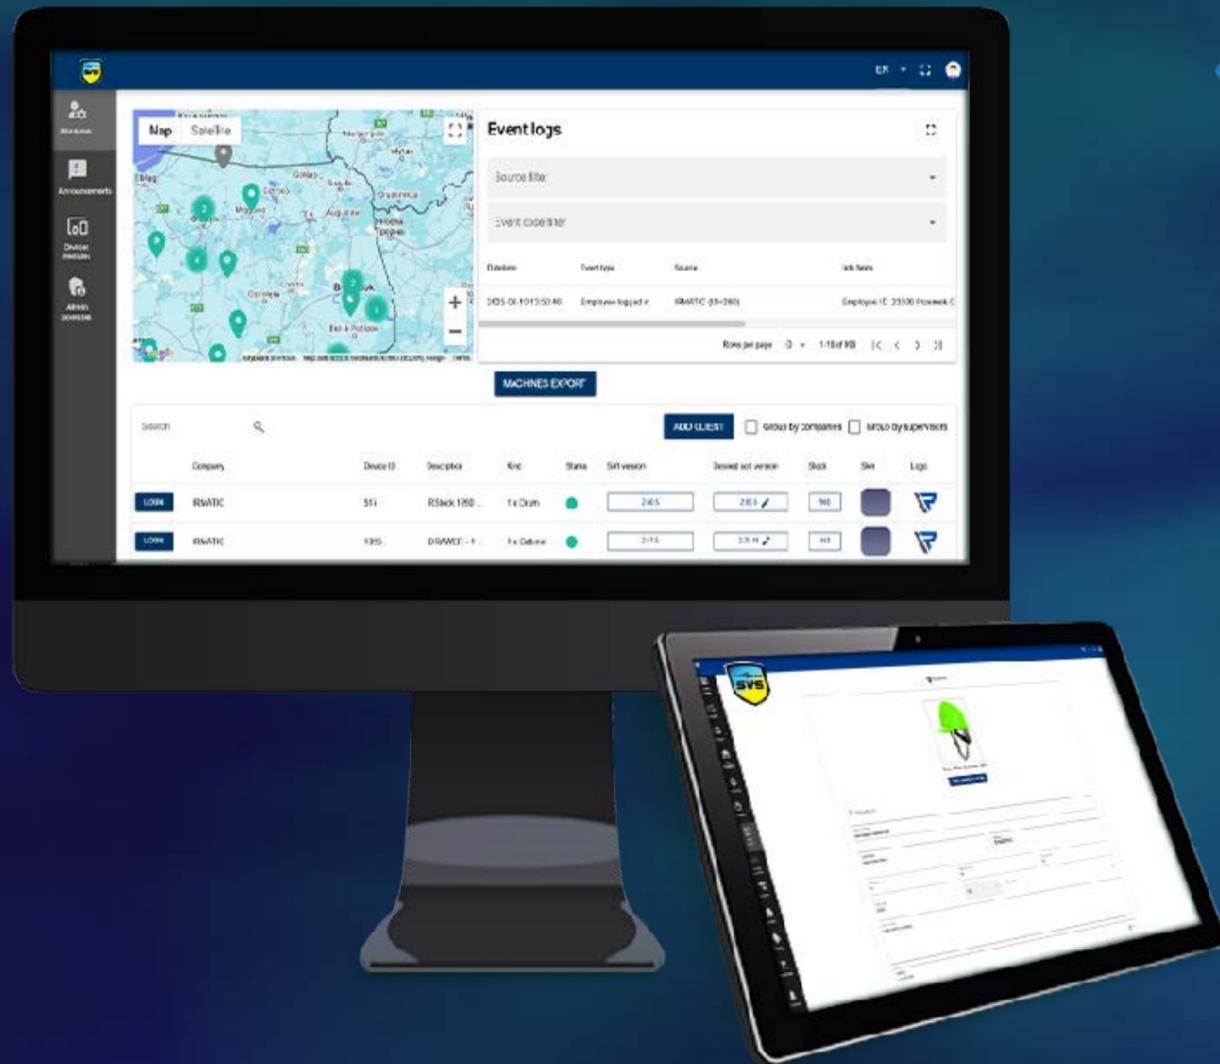

DISCOVER OUR SOLUTIONS

MEET THE IRMATIC PRODUCT FAMILY

IRSYSTEM

- One system across all machines
- Easy-Flow: IRMATIC's design framework for user interfaces based on UX best practices
- Comprehensive analytics
- Customizable reports via SQL
- ERP system integration
- Role-based functionalities tailored to employ responsibilities
- Cloud-based architecture

MEET THE IRMATIC PRODUCT FAMILY

IRSTOCK 945

- Up to 945 compartments
- Sturdy rotating drum for fast dispensing and loading
- 9 configurations of compartment height and width
- Easy scalability
- Built-in RFID reader, barcode and QR scanner
- 6 product loading modes
- Full ERP systems integration options

MEET THE IRMATIC PRODUCT FAMILY

IRSTOCK 945 BOX

- Up to 945 compartments
- Sturdy rotating drum for fast dispensing and loading
- 9 configurations of compartment height and width
- Easy scalability
- Built-in RFID reader, barcode and QR scanner
- 6 product loading modes
- Full ERP systems integration options

MEET THE IRMATIC PRODUCT FAMILY

IRSTOCK 1260

- Up to 1260 compartments with extended dimensions
- Sturdy rotating drum for fast dispensing and loading
- 9 configurations of compartment height and width
- Easy scalability
- Built-in RFID reader, barcode and QR scanner
- 6 product loading modes
- Full ERP systems integration options

MEET THE IRMATIC PRODUCT FAMILY

IRSTOCK 1260 BOX

- Up to 1260 compartments with extended dimensions
- Sturdy rotating drum for fast dispensing and loading
- 9 configurations of compartment height and width
- Easy scalability
- Built-in RFID reader, barcode and QR scanner
- 6 product loading modes
- Full ERP systems integration options

MEET THE IRMATIC PRODUCT FAMILY

IRDEPO MAX

- Environmentally friendly solution
- Promotes sustainability
- Increases savings
- Up to 3 mobile compartments for returns
- Video monitoring of the return process upon trigger
- Minimizes clutter in the facility

MEET THE IRMATIC PRODUCT FAMILY

IRDEPO 3

- One machine for various types of returned items
- Supports sustainability policies
- Full traceability of returned items
- Option to enforce the return of a previously collected product before issuing a new one
- Swappable mobile bins adapted to the returned item type
- Compact footprint with high capacity
- User-friendly interface
- 24/7 operations
- Real-time bin occupancy monitoring

MEET THE IRMATIC PRODUCT FAMILY

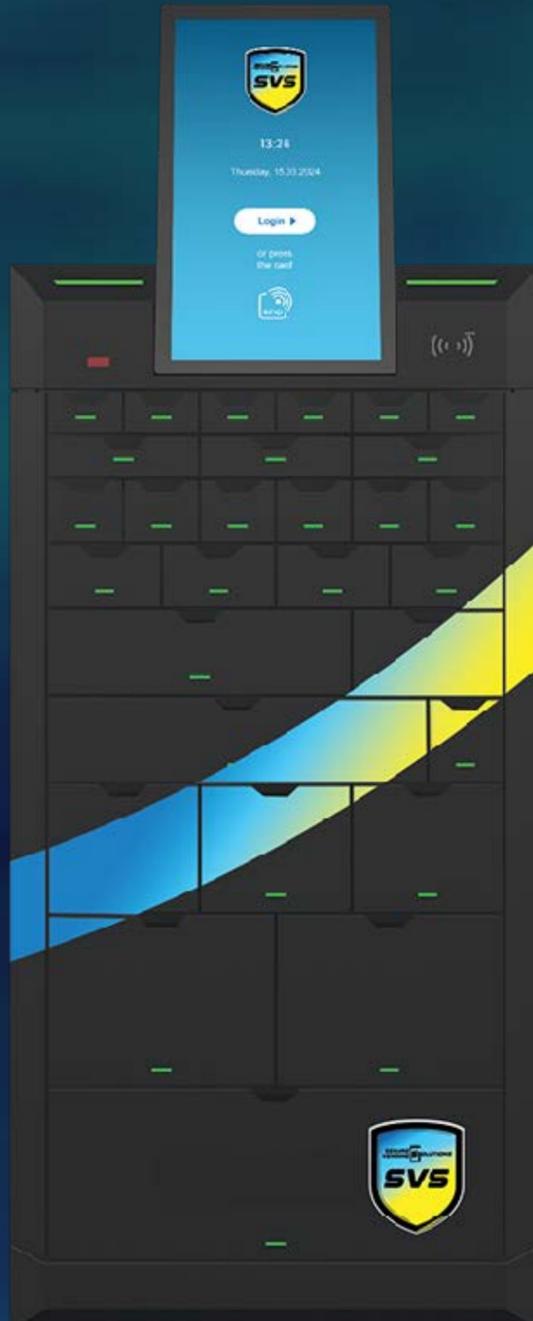

IRDRAWER

- Up to 1792 slots for unique products
- Selection of 2 drawer heights
- Full compartment customizability
- Reduces employee downtime wasted on retrieveing tools from physical warehouse
- Facilitates returns of unused products

MEET THE IRMATIC PRODUCT FAMILY

IRDRAWER PRO

- Up to a staggering 1440 compartments
- 31 configurable drawer variants
- Progressively opening drawers with up to 12 slots each
- Master-level control over individual product access
- Helps to manage used products economy
- Increases savings on recurring products purchases

MEET THE IRMATIC PRODUCT FAMILY

IRLOCKER

- Up to 72 individual locker compartments
- Can contain a mix of drawers and lockers for up to 1200 SKUs
- Charging capability inside individual lockers
- Can be modified for outdoor use
- Optional payment module for renting products out

MEET THE IRMATIC PRODUCT FAMILY

IRSCALE

- Up to 72 individual locker compartments
- Up to 16 scales in one drawer and 4 in a single locker - maximum precision of control
- Four available scale capacity ranges: 5 kg, 10 kg, 20 kg and 30 kg
- Charging capability inside individual lockers
- Can be modified for outdoor use
- Optional payment module for renting products out

MEET THE IRMATIC PRODUCT FAMILY

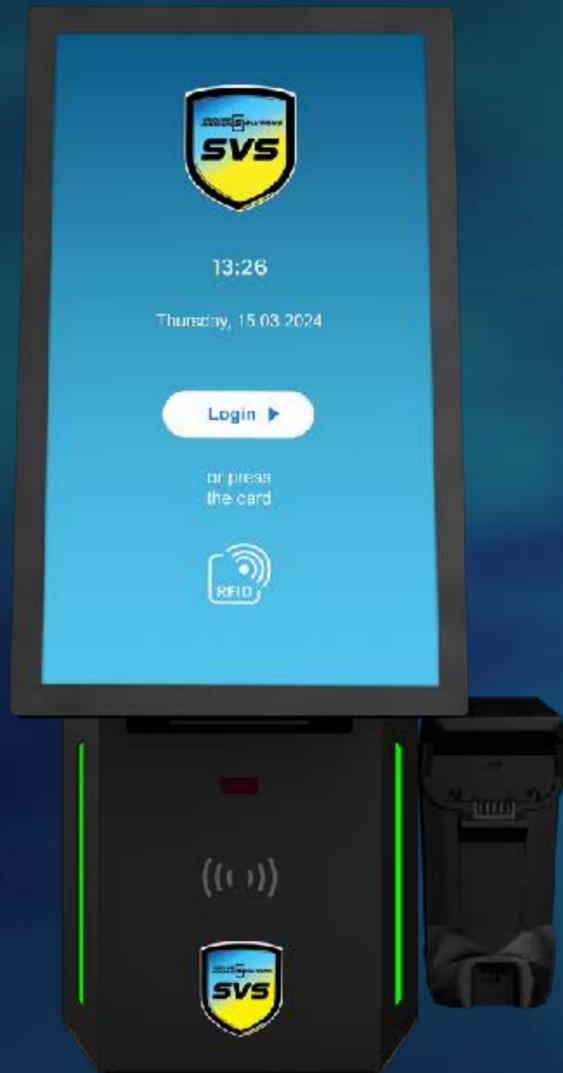

IRPOINT

- Self-service terminal
- Virtualizes physical warehouse space
- Physical warehouse layout visualization
- Manage bulk and extra-large sized products
- Up to 15 virtual warehouses with 100,000 SKUs each
- Hassle-free consignment stock management
- Pre-ordering capabilities for employees
- Direct webstore access

MEET THE IRMATIC PRODUCT FAMILY

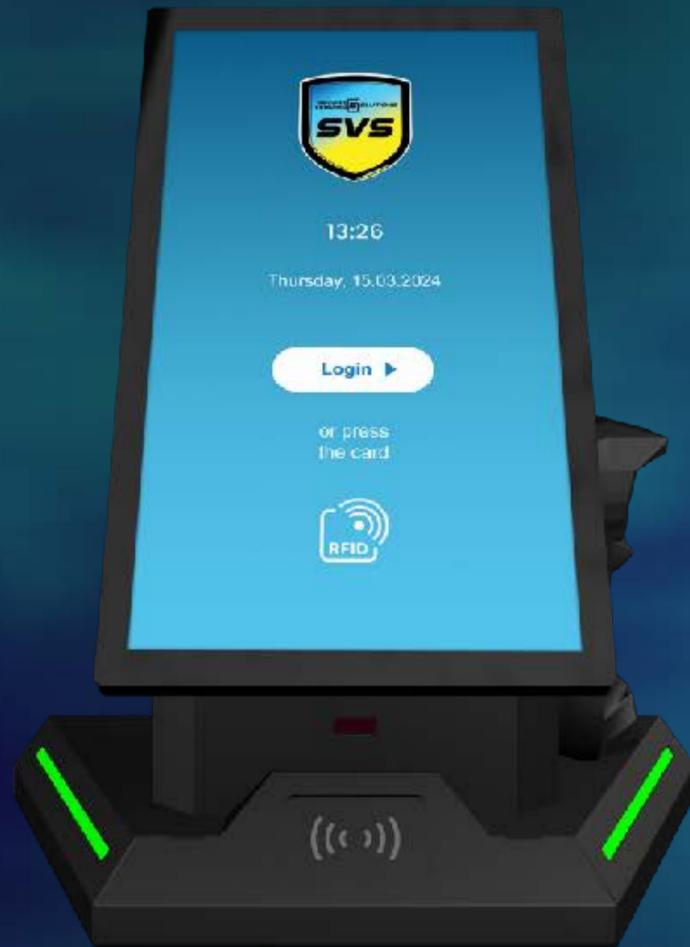

IRPOINT WALL

- Self-service terminal
- Virtualizes physical warehouse space
- Physical warehouse layout visualization
- Manage bulk and extra-large sized products
- Up to 15 virtual warehouses with 100,000 SKUs each
- Hassle-free consignment stock management
- Pre-ordering capabilities for employees
- Direct webstore access

MEET THE IRMATIC PRODUCT FAMILY

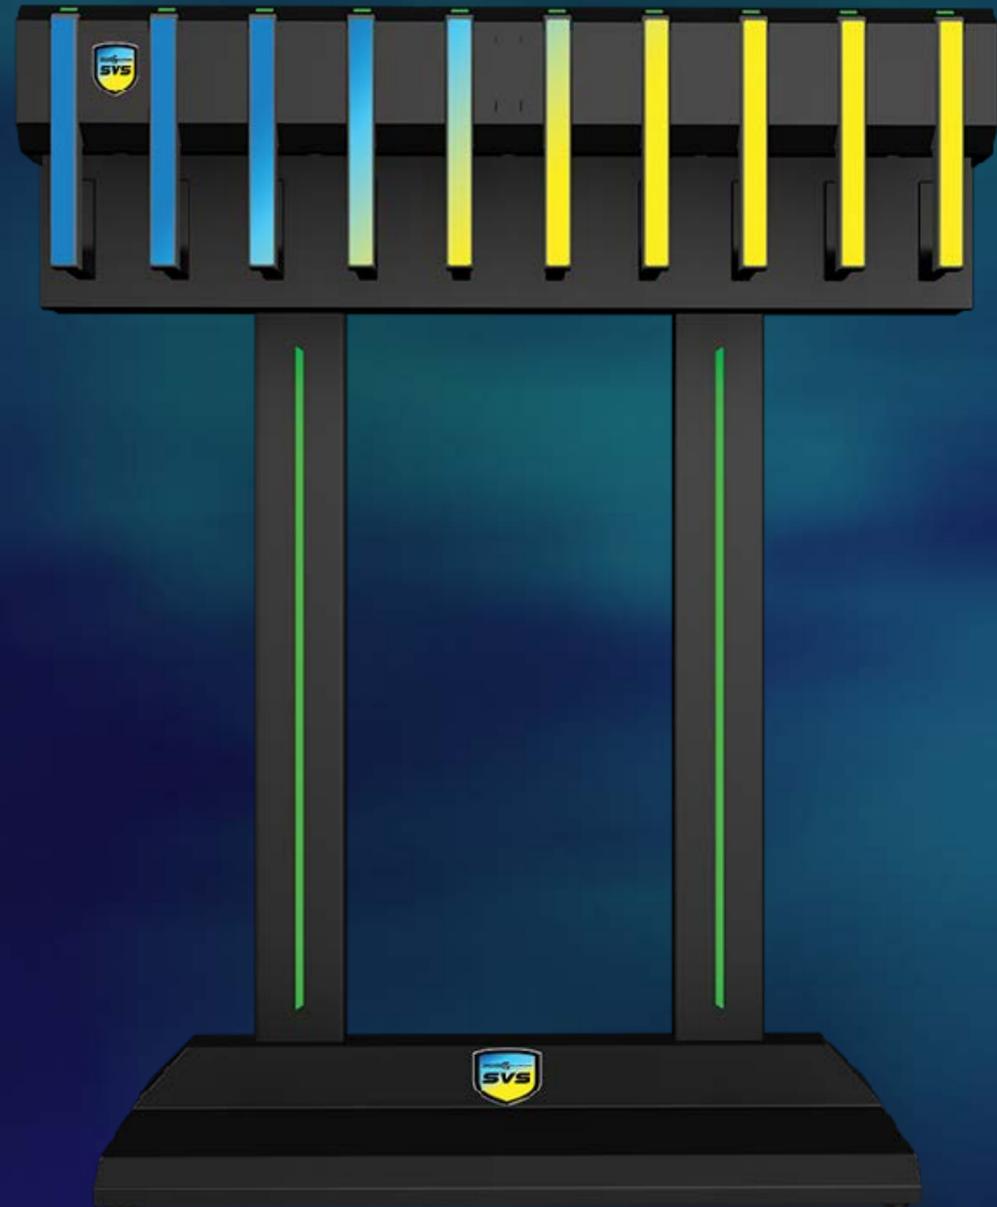

IRPOINT DESKTOP

- Self-service terminal
- Virtualizes physical warehouse space
- Physical warehouse layout visualization
- Manage bulk and extra-large sized products
- Up to 15 virtual warehouses with 100,000 SKUs each
- Hassle-free consignment stock management
- Pre-ordering capabilities for employees
- Direct webstore access

MEET THE IRMATIC PRODUCT FAMILY

IRHOOK

- Designed for lifting slings and height safety equipment
- Monitors regulatory expiration dates of products
- Augments employee safety supervision
- Inspection date reminders
- Streamlines resource management
- Created from direct market demand and feedback

MEET THE IRMATIC PRODUCT FAMILY

IRSPACE

- Mobile self-contained tool room
- 3 size variants from 3 to 12 meters
- Distribute products on-site
- Solar power option
- Off-grid operations capability
